IN RE:  GLOBCOM INCORPORATED	DOCKET NOS. TCU-03-7 WRU-03-26-3714
------------------------------------	--

**ORDER GRANTING APPLICATION, APPROVING CONCURRENCE IN MAPS,  
AND GRANTING WAIVER**

(Issued July 10, 2003)

On June 2, 2003, Globcom Incorporated (Globcom) filed an application for a certificate of public convenience and necessity pursuant to Iowa Code § 476.29 (2003), stating its intention to provide local exchange telecommunications service in the exchanges currently being served by Qwest Corporation (Qwest) and Iowa Telecommunications Services, Inc., d/b/a Iowa Telecom (Iowa Telecom). The application has been identified as Docket No. TCU-03-7. Globcom has provided financial statements and the qualifications of its company officers and has stated it will support a 2-PIC methodology for dialing parity. Notice has been served on all affected carriers and no objections have been filed.

Iowa Code § 476.29(2) provides that a local exchange carrier shall not be denied a certificate if the Utilities Board (Board) finds that the applicant “possesses the technical, financial, and managerial ability to provide the service it proposes to render and the board finds the service is consistent with the public interest.”

The Board has reviewed Globcom's application and finds the necessary technical, financial, and managerial abilities to provide local exchange service have been demonstrated. It is in the public interest to approve Globcom's application.

Globcom also states that its service area will mirror the service territory of the exchanges and service area maps of Qwest and Iowa Telecom as they are currently filed and may be modified in the future. Iowa Code § 476.29(4) requires that each certificate define the service territory in which land-line local telephone service will be provided and authorizes the Board to promulgate rules establishing the requirements for filing maps showing the service territory. Subrule 199 IAC 22.20(3) requires that all utilities have maps on file with the Board that show exchange boundaries. The Board finds that Globcom has complied with the statutory and rule requirements by concurring in the maps of Qwest and Iowa Telecom.

Globcom requests the Board waive the requirements of 199 IAC 16.5(2), 18.2, and 22.3(1). The waiver requests are identified as Docket No. WRU-03-26-3714.

Globcom requests a waiver of 199 IAC 16.5(2), which requires the keeping of records according to the uniform system of accounts. Globcom states it will maintain its books in accordance with generally accepted accounting principles (GAAP). The Board finds this waiver should be granted since records kept in accordance with GAAP accounting are acceptable for a competitive local exchange service provider.

Globcom also requests the requirements of 199 IAC 18.2 be waived. The rule requires that a regulated public utility keep its records in Iowa. The Board will grant the waiver based on Globcom's statement that it will make the records available to the Board upon request.

Globcom also requests a waiver of 199 IAC 22.3(1), requiring it to independently publish a directory. The Board will grant the waiver based upon Globcom's statement that it will arrange for its customers to be included in the directories published in the areas it provides local exchange service.

Rule 199 IAC 1.3 states that the Board may grant waivers if it finds, based upon clear and convincing evidence, that the application of the rule would pose an undue hardship, the waiver would not prejudice the substantial legal rights of any person, the provisions waived are not specifically mandated by statute, and substantially equal protection of public health, safety, and welfare will be afforded after the waiver. The Board has considered the waiver requests as described above and finds that the waiver meets the four criteria of the rule and the evidence in support of the waiver is clear and convincing.

Adherence to these rules would be an undue hardship on a competitive telecommunications company just beginning to do business in Iowa. It would be an undue hardship on Globcom because other competitive carriers have been granted similar waiver requests. The Board finds that there are no substantial legal rights of any person that are affected by these waivers and there is no statute that specifically mandates the actions waived. Additionally, the Board finds that there will be substantial equal protection for health, safety, and welfare provided since the actions waived will be completed under different circumstances.

Globcom has not filed proposed tariffs for Board approval setting out the prices, terms, and conditions of providing local exchange service. The Board finds

that a certificate should not be issued to Globcom until it has approved tariffs on file with the Board.

**IT IS THEREFORE ORDERED:**

1. The application for a certificate of public convenience and necessity filed by Globcom Incorporated on June 2, 2003, is granted subject to the requirements that follow.

2. The Board will issue a certificate of public convenience and necessity allowing Globcom Incorporated to provide local exchange service upon approval of tariffs reflecting the price, terms, and conditions of local exchange service in Iowa.

3. The concurrence in the maps and boundaries of the exchanges of Qwest Corporation and Iowa Telecommunications Services, Inc., d/b/a Iowa Telecom, is approved.

4. The waiver of 199 IAC 16.5(2), 18.2, and 22.3(1), identified as Docket No. WRU-03-26-3714, is granted as described in this order.
